YOUTH ENGAGEMENT & PARTNERSHIP IN TRANSITION TO ADULTHOOD

A Framework by Youth MOVE National

Join us for a presentation on creating meaningful partnerships and engagement with youth in the transition to adulthood. Through a trauma-informed care framework, this discussion aims to shed light on the importance of recognizing historical and ongoing harm, shifting our approaches to support, and creating a critical and intersectional lens that acknowledges the impact of trauma on youth and young adults. By reframing the language and approaches used in supporting young people in their journeys to adulthood, we can better our practices across youth engagement, partnership, and advocacy in transition. All of this is in service of honoring and uplifting the autonomy and self-determination of youth within these contexts. Whether you are a parent/caregiver, educator, or community service provider (even a mix!), we encourage you to attend!
